MEMORANDUM FOR: MR. COL. PRESTON COVINGTON

FROM: MR. COL. JOHN F. STROMBACH

Request that I be furnished with the list of five to six thousand radio engineers, American citizens born in foreign countries, which I obtained from the FCC and turned over to you.

We can use this list to supplement our national list of available radio men which we feel we should maintain not only for our own operation but to aid in the organization of radio units in foreign countries when called on to do so.
